Hoops for Hope

Every 30 seconds, someone is diagnosed with cancer. Cancer, as we all know, can be devastating to both the families and the communities around the patient. In order to find more effective means of counteracting the disease, cancer treatment and research are being conducted. However, such actions have hefty costs associated with them.

As a school district and a community, we would like to do our part in helping fund such a cause. We would like to ask all the community members to join us in the fight against cancer at the annual Hoops for Hope basketball game. The game will take place at the Southeast Warren High School on January 20th. The night will consist of multiple events including a silent auction, dinner before the game, a pass the bucket fundraiser, and the boys and girls varsity basketball games against Lenox. This year the student council chose to donate all profits generated from the night to the American Cancer Society to fund cancer research. All admission fees to the game will be donated, so no passes will be accepted at the gate.

Come out for a night of fun, and do your part to support a life-changing cause!

Angel Tree

The Angel Tree project was wonderful again this year. We had ten families this year to sponsor. Once again the student council was blown away by the support of this community for families in need. Thank you to each and every person and family who helped to make this program such a success.

The student council would like to give a special thank you to the local families, business and student organizations that adopted entire families to support this year. Without them, this would not be possible! We are incredibly thankful for their support of the families in our community.

We also received monetary donations to help cover the cost of wrapping the presents and to buy the remaining gifts for the children. Another huge blessing! The school's food bank also donated gift cards to each family to support them during this holiday season.

A big thanks to these groups as well as our ENTIRE community. We are pleasantly overwhelmed with all your generosity and we know the children in these families will greatly appreciate it.

Ohnemus Receives #2 World Ranking

Mason Ohnemus has received an amazing accomplishment in his post-secondary DMACC Intro to Business class. Students were required to complete a business simulation called MikesBikes.

This simulation was developed for college business classes, appointing the student as the CEO of their own bike company. This means being in charge of some simple decisions such as product production, advertisement, public relations; but also more complex decisions such as obtaining loans to implement new products (principal amount, rate of interest, etc.), what quantity of stocks to release to the public, whether to give those shareholders dividends, or how much money to put towards employees to increase production and minimize waste. The ultimate goal is to maximize profits in an ever changing world market.

At the end of the simulation Mason came out 1st in the class and 2nd in the world, only \$9 SHV (shareholder value) away from the world record! After completing, Mason was invited to the world championships which take place later this year, with the winning "company" receiving a cash award. This is sponsored by Smartsims.com of New Zealand, the company that created the simulation.

Congratulations Mason on this awesome accomplishment!

Board Minutes, cont'd

to low TIER assessments next year. The staff will need to attend training on the new system.

5. Smarter Balance Assessments have been proposed for next year. If implemented, staff will be sent for training.

6. There are now enough Chromebooks to distribute to all 5th grade students. The iPads that the 5th grade students have been using will be sent to the Primary building. The 4th grade students will stay with the iPads.

Mr. Cruikshank indicated it would not be hard to set up eight man football games for next year. The consensus of the Board was to proceed with eight man football for the JV next year.

RENTAL FEE FOR USE OF CONCESSION STANDS: Superintendent Galvin related to the Board that the auditor's notes stated that a rental fee should be charged to the booster clubs and other organizations for use of the concession stands. than part-time. The proposed rates would be \$140 per week for full-time (5 days per week), \$96 for part-time (3 days per week), and \$32 for daily. The new rates would go into effect January 1, 2017. Families with children currently enrolled would be grandfathered in until their child moves to the next age level room. APPROVE BID TO RETROFIT LIGHTS IN THE MILO BUILDING: Superintendent Galvin related to the Board that four bids had been received

to retrofit the lights in the Milo building with energy efficient LED lights.
